

# map() = lerp(norm())

convert between ranges!

```
map() = lerp(  
    inputValue = norm(  
        inputValue,  
        sourceMin,  
        sourceMax  
    ),  
    destMin,  
    destMax  
)
```

# Grid Variation

From:  $\sin/\cos(\theta) = [-1, 1]$     To: [customMin, customMax]
