map() = lerp(norm())

convert between ranges!

```
map() = lerp(
  inputValue = norm(
   inputValue,
   sourceMin,
   sourceMax
  ),
  destMin,
  destMax
)
```

Grid Variation

From: $sin/cos(\theta) = [-1, 1]$ To: [customMin, customMax]

```
radius = map(cos(u * 300f), -1f, 1f, 5f, 15f)

center = Offset(
    x = x0ffset,
    y = y0ffset + map(sin(u * 300f), -1f, 1f, -10f, 100f)
)
```
